SUMMARY

Innovative and results-driven Full Stack Developer, backend focused, experienced in designing and developing cutting-edge software solutions.
Leader in diverse projects using SCRUM.
Committed to quality, efficiency and collaborative success in achieving project objectives.

WORK EXPERIENCE

Legendaryum
Backend Developer   **August 2023 – September 2023**

• Designed and developed a monolithic backend application focused on displaying 3D rooms with coins, simulating a metaverse.
• Engineered and implemented a socked-based system using Redis and Socket.io, enabling client connections and real-time coin interactions within virtual rooms while enhancing user engagement with coin availability notifications.
• Developed a CRUD system using Express and TypeScript to manage "/rooms" and "/coins" endpoints, ensuring smooth data administration and management.

UrbanWest Shoes
Full Stack Developer & Team Leader   **July 2023 – August 2023**

• Led a team of 4 developers and a UX/UI designer for an ongoing freelance E-commerce project.
• Organized the team's efforts, assigning tasks and ensuring the completion of essential project features.
• Designed Sequelize models and established relationships within the SQL database for efficient data management.
• Implemented CRUD functionality for User and Product entities using Nest.Js, streamlining data handing and access. Also styled a few components at the frontend using TailwindCSS.

StoryDots
Full Stack Developer   **April 2023 – May 2023**

• Designed and developed a fully functional E-commerce of hardware (API RESTful).
• Developed entity/relationship models and established seamless connections for efficient data management. Also developed all CRUD operations at the backend using Express.
• Designed, developed and deployed the frontend on Vercel and the backend on Railway, ensuring accessibility for end-users.

Youpet
Full Stack Developer & Team Leader   **November 2022 – December 2022**

• Led a team of 6 developers, delegated tasks to team members, and proposed best practices to enhance project organization and overall efficiency.
• Designed the SQL database by creating tables and establishing relationships between them, ensuring an efficient data structure.
• Implemented backend routes, effectively resolving compatibility issues with libraries, and provided support to colleagues in managing Git flow.
• Presented a comprehensive website to the client, showcasing the project's features and capabilities.

EDUCATION

Henry Intensive Bootcamp   **March 2022 – January 2023**
Graduated as Full Stack Developer with advanced knowledge of MERN technologies.

SKILLS, ACTIVITIES & INTERESTS
Languages: Spanish (Native), English (C1)
Technical Skills: HTML, CSS, JavaScript, React, Next.js, Redux, Node.js, Express, Nest.js, TypeScript, PostgreSQL, Redis, Sequelize, MongoDB, Docker, Bootstrap, TailwindCSS, Golang / Go, Gin.
Activities: Henry Hero (Provided support spaces with live code to students of new cohorts)
Interests: Exploring new technologies, gaming and longboarding.
